HOURS

9 & 10
December
2022

Hands on Surgical Implant Program

This course is ideal for clinicians who want to gain experience in the surgical placement of dental implants.

Participants will learn the process of patient selection, site selection, and surgical placement based on the prosthetic requirements to achieve both a functional and aesthetic outcome.

Friday, 9 December 2022

A/Prof Anthony Lynham

BDS (Qld), BMed (Hons), FRACDS (OMS), FRCS Ed

A/Prof Lynham completed his surgical training in maxillofacial surgery in Queensland. A Fellowship visit to Switzerland enabled him to gain further experience in this fascinating surgical field.

A/Prof Lynham's practice includes dento-alveolar surgery, dental implants, wisdom teeth, facial trauma and reconstruction, sleep apnoea surgery, bone grafting, and oro-facial pathology. He presently is a Clinical Director at the Jamieson Trauma Institute at the Royal Brisbane and

Women's Hospital and practices privately as a member of the Queensland Maxillofacial Group. He holds academic posts as an Associate Professor at the University of Queensland and Adjunct Professor at the Queensland University of Technology. He sits on the Advisory Board of the ARC Training Centre for Cell and Tissue Engineering Technologies and is a Director of the Aboriginal and Torres Strait Islander Community Health Service.

Dr. Gregory J Peek

BDS (Hons) MDS (OMS)

Greg completed a Bachelor of Dental Surgery with Honours at the University of Sydney, Australia in 1985. Following Graduation Greg served as a Dental Officer with the Australian Defence Forces before completing a Master of Dental Science (OMS) at the University of Queensland and the specialty stream exit examination of the Royal Australasian College of Dental Surgeons in Oral and Maxillofacial Surgery. Greg then worked as a Consultant Oral and Maxillofacial

Surgeon at the Royal Australian Naval Hospital and the Manly District Hospital in Sydney before joining Brisbane's Princess Alexandra Hospital and Ipswich General Hospital. Greg moved to full time private practice in Oral and Maxillofacial Surgery, most recently working in a multidisciplinary specialist practice. On retiring from practice Greg recommenced his involvement in dental education at the University of Queensland Dental School before accepting a position at the University of Aberdeen as a Clinical Lecturer where he is currently the Senior Clinical Lecturer.

Dr. Mitchell Innes

BSc(BioMedSci) BDS (HONS) D Clin Dent (PROS)

Mitch completed his specialist training with a Doctorate in Clinical Dentistry (Prosthodontics) at the University of Adelaide. His extensive research into CAD/CAM material analysis and degradation behaviours has attracted national and international interest. Mitch is also currently researching the clinical behaviour of dental ceramics and the implementation of digital technology in dental ceramic restoration fabrication. This is an area he lectures on nationally and internationally and has undergone journal publication. Dr. Innes has a patient-first philosophy, ensuring all scenarios are covered and that informed decisions are made before beginning any dental treatments. Dr. Innes practises micro-dentistry techniques to not only preserve the natural tooth structure but also give long-lasting and high-quality dental results.
