

## Precision-Engineered for Optimal Performance

### Neoss Universal Ti ScanBody

Crafted from high-quality titanium and surface-treated for optimal performance, it provides benefits to both clinicians and laboratories thanks to its durability and accuracy when scanning, including enhanced x-ray visibility leading to improved seating verification.

#### ✓ Accuracy & Efficiency

- Precision-engineered for highly accurate measurements
- Unique clamping feature enables efficient and precise placement with the ScanKey™ system

#### ✓ Durability & Ease of use

- High-quality titanium material for maximum durability in both clinical and laboratory environments
- Includes screw to ensure seamless handling and optimal fit
- Effective handling when in clinical situations thanks to clear platform-base markings

#### ✓ Improved Diagnostic Capabilities

- Radiopaque to confirm exact measurements
- Optimized surface treatment for scan accuracy
